Outcomes Health Information Solutions New Georgia Location to Serve Company's Growing Client Base

Alpharetta, GA, (March 18, 2010) -- Outcomes Health Information Solutions, LLC, a leading healthcare data auditing and analytics company, announced today its move into its new headquarters in Alpharetta, GA. Now occupying nearly 47,000 square feet, the expansion confirms the company's sustained rapid growth in the healthcare market.

"This move allows us to accommodate our existing and future growth," said Gary Velasquez, CEO of Outcomes. "We are making a long term commitment to the Atlanta labor market and its access to a robust talent pool." Outcomes' new office houses approximately 200 employees and plans to add 100 new jobs over the next 12 months.

A significant increase in demand for Outcomes' risk adjustment and quality-based solutions is what prompted the move into the expansive office space. In addition, Outcomes continues to expand its infrastructure and top tier management team in order to better respond to the needs its clients and to support growth in all functional units, including product development, technical services, quality assurance, and business strategy.

"This is an exciting time at Outcomes," said Velasquez. "This expansion is attributed to our entire team that is working so hard to make Outcomes the best-in-class solutions provider in the healthcare industry," Velasquez adds.

The company's new address is 13010 Morris Road, Building 2, Alpharetta, GA 30004.
