Outcomes Health Information Solutions Receives “Thumbs Up” From AAPC

Stanford, KY, (May 9, 2009) -- The American Academy of Professional Coders (AAPC) has given its approval for Outcomes Health Information Solutions, LLC to issue continuing education units (CEUs) for 2 of its coding programs. Outcomes' certified coders and nurses will receive 2 CEUs when they complete the initial training program. Outcomes will also host 4 open forums per month where members of the clinical audit team will receive 1 CEU per session, up to 14 per year.

Outcomes' auditing training program includes clinical coding documentation training and benchmark proficiency testing. Outcomes ensures coding compliance through its quality assurance program, monitoring the work performed by every nurse and coder on staff. Outcomes' clients see value in this compliance-based approach. "I have a sense of comfort knowing that Outcomes takes quality and compliance seriously," said one of Outcomes' MA plan clients. The clinical audit team is part of Outcomes' service delivery platform which uses powerful technology to capture and integrate healthcare data used by organizations on an enterprise-wide scale.

This program has the prior approval of the American Academy of Professional Coders (AAPC) for 2 continuing education hours. Granting of prior approval in no way constitutes endorsement by the AAPC of the program content or the program sponsor.

About Outcomes Health Information Solutions, LLC:

Outcomes Health Information Solutions, LLC (www.outcomesinc.com) is an industry leader in healthcare data acquisition, auditing, and analytics. Outcomes provides end-to-end solutions to health plans, provider groups, hospital networks, and clinical research organizations. With its exclusive service delivery platform, clinical auditing practices, and state-of-the-art technological tools, Outcomes delivers improved datasets to its clients for enterprise-wide initiatives. From HCC management programs to quality studies like HEDIS®, Outcomes provides data improvement solutions to help clients meet their objectives on time and on budget. With a compliance-based auditing approach as the foundation, Outcomes delivers precise results which supports its commitment to healthcare data improvement.
